Themes of the study visit are:

1. prevention of early school leaving (measures and activities at schools and in municipalities),
2. ways of cooperation regarding NEETs (strategic decisions, one stop shops and holistic approach)
3. solutions for education and career counselling

Gävleborg County is situated in central Sweden by the coast of the Baltic Sea. It is home to everything that characterizes Sweden – mountains, sea, archipelago, lakes, rivers, forest and wilderness. Its diverse economy includes both world-leading advanced industries that are traditional to the region, such as paper and packaging, steel, and innovative sectors, such as clean technology, Geographical Information Systems, fiber optic technology and creative industries. The region comprises of ten local municipalities, where Gävle is the biggest with almost 100 000 inhabitants.

Gävleborg has for several years had one of the highest youth unemployment rates in Sweden. For the past four years the percentage of youth unemployment is decreasing drastically because of number of initiatives such as prevention of early school leaving and rehabilitation of young people in NEET situation.
