Study visit

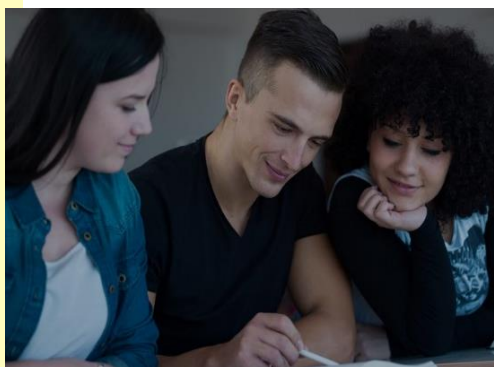

EXPLORATION OF GDANSK: YOUTHFULNESS AND USEFULNESS

FOCUS OF THE STUDY VISIT

Poland is one of the countries in the Baltic Sea Region that has the lowest number of early school leavers and has also achieved recognizable results with their work with young people who are at NEET situation. In addition to these successes, the City of Gdansk has succeeded to create and coordinates a very effective network in field of vocational education. This network helps to design study programs with qualifications that are demanded among employees.

Topics of the study visit are:

- ⦿ support for youngsters to enter labour market,
- ⦿ preventative work with youngsters who are at risk of social exclusion,
- ⦿ giving the second chance to young people to continue their education and training.
